1992-2022  
**30**  
YEARS

# The history of Nebrak.

Let's rewind... It all began back in the eighties when Paul's new eye-catching exhibition stands took the circuit by storm. Paul worked on many projects, and it wasn't long until Nebrak Ltd was established.

# Celebrate 30 years with us.

Paul Howard began Nebrak in the early eighties and had success within the Exhibition, Vending and Catering Interior markets. He used a small team of designers who worked to his brief and together they achieved success quickly, they soon became the "go to" company for vending interiors.

Nebrak used various companies that provided the works under Paul's supervision. This method of design and construction could not be sustained in a growing company, so Paul took the opportunity to buy a

factory and began to manufacture in house. From that point, Nebrak have never looked back. Tom Howard now runs the factory with his team of experienced project managers, designers, joiners, and site fixers all under his and his team's supervision. Tom has a mass of knowledge and along with the team they bring amazing designs to the table ranging from the wackiest through to regular items in the most cost-effective way possible. Nebrak continues to break barriers in the vending and catering interiors world.

# Our commitment to sustainability

## Recycle

We produce many project briefs, plans and brochures across the year for clients, so practice 'Think before you print'. Reusable cups are used for the copious amounts of coffee consumed and our on-site catering facilities help minimise waste and promote recycling.

## Reduce

We produce many project briefs, plans and brochures across the year for clients, so practice 'Think before you print'. Reusable cups are used for the copious amounts of coffee consumed and our on-site catering facilities help minimise waste and promote recycling.

## Reuse

Our website is hosted using renewable energy via the Green Web Foundation and we're always assessing our digital carbon footprint with our choice of equipment and communications.

WORLD  
LAND  
TRUST™

[www.carbonbalancedprint.com](http://www.carbonbalancedprint.com)  
CBP2233

PRINTED ON CARBON BALANCED PAPER

Paper is now regarded as one of the world's great sustainable products. It's biodegradable, recyclable and made from a renewable raw material. Carbon Balanced Paper in partnership with World Land Trust is the next step. It's come at a time when business and consumers are looking for every way they can to reduce their carbon impacts. The certification, which is part of a scheme operated by WLT, was attained by offsetting our entire annual operational carbon footprint through the purchase of endangered tropical habitat.

# The complete service

Nebrak are with you all the way. From brief, to consultation to design then onto manufacture, graphic and Installation. Use us to help win a tender or use us to come up with the ideas that work for you and your client.

With in-house designers and a complete in-house manufacturing process we achieve what you want, when you want it and within budget. Nebrak are known by machine manufacturers as a company that has skill and knowledge, this means that what we perfectly design and build to specification.

## Find the solution

This catalogue shows what we have to offer, it will help you and your client to decide how best to use the area or decide on the service you would like to provide.

## Simplicity

The products in this catalogue are manufactured by us, that means that if you want a modification, it's easy. Simply tell us the machine you want or colour you would like.

## Place the order

You can call us, you can email us, you could send it by pigeon (not really) and we will respond quickly, efficiently and with a smile. You are our customer!

**Brand it**

Where you see this icon you can use your own branding at no extra cost.

**Recycle it**

Look after the environment and recycle old metal work or parts.

**Customise it**

Add your touch by customising our design.

# We Install

## HOW TO ORDER

At Nebrak we never want to lose contact with our customers (that's what makes us who we are!) Our office is open Mondays to Friday, from 08:30 to 17:00. Once you've seen something that interests you and you're ready to order or want to ask any questions the Nebrak team will be happy to help in any way possible. It's like the good old days when you actually spoke to a person! If that doesn't suit, then please email us with your order or your query and we will respond within 24 hrs.

Help us process your order or enquiry quickly by quoting the product codes against each item.

# Operandi Vending

## THE PIONEER OF VENDING SURROUND SYSTEMS

Operandi got its name from Modus Operandi, which is Latin, basically it means "a usual way of doing something special" Nebrak and its Operandi surround system is really special. It's probably the most widely used surround system in the UK.

Operandi is a Nebrak design and can only be used by Nebrak, we designed it, we use it, and you can enjoy the fact that it accommodates all vending machines as well as client equipment and microwaves. With the anodised aluminium post it's stylish, robust and fully recyclable. Vending areas with Operandi surrounds bring many benefits.

- Reduces vandalism
- Attracts usage
- Allows for large graphics
- Increases the presence of vending
- Stops machine from "walking"
- Can be reused.

# Bespoke Vending

## INNOVATIVE, CREATIVE AND ENGAGING

From the initial meeting, we survey the site before submitting a detailed proposal and costing. Once the order is received, Nebrak's team of project managers, shopfitters/joiners and dedicated graphics team put all items together ready for the Nebrak fitters to deliver and install in Nebrak's dedicated vehicles. Our team take great pride in ensuring jobs are built on time, within budget and to a high standard from the very beginning all the way through to completion.

### Manufactured In-house

Once the design and specification are agreed, our skilled joiners set to work. Because your project is managed and manufactured here, we are able to keep you abreast of progress. Naturally, every care is taken to transport your project and install to the highest standards.

# Premium Vending

## LEVEL UP YOUR VENDING OFFER

At Nebrak we are at the front of new innovations. Opportunities for vending operators have never been greater. From incredible technological advances in payment systems, touchless anti-microbial screens and smart fridges to shift in consumer behaviour and demand for healthier food options, these are exciting times in vending.

Vending operators are putting the consumer at the core of what they do, just like us. The aim is to create refreshment destinations that offer an experience like many trusted high-street food and beverage brands - just in the workplace. Gone are the days of stand-alone machines, expectations have been raised and as a result so has revenue potential. Even Nebrak's award-winning Operandi vending surround can be built inclusive of premium vending elements.

# Plus+ Vending

## CUSTOMISE YOUR OFFER

Configure and customise your offer to suit the needs of your clients or settings. Litter chutes, cup dispensers, sanitisers and microwave bays are popular elements of premium vending furniture. We can even integrate payment systems and card readers providing a seamless, functional and secure solution. The inclusion of a Break Out Area can further enhance your space.

Choose from 300+ finishes, a vast selection of cabinet hardware, the option to brand, add graphics, include lighting and personalise with finishing touches to create maximum impact or compliment existing interiors.

# Micro markets

## HIGH STREET TO THE WORKPLACE

Micro markets bring the high street experience to the workplace. The end-user experiences an abundance of refreshment solutions, without having to leave site.

### Award-winning Micro market Design

We have a wealth of experience in the survey, design, manufacture and installation of these areas and can manufacture them to suit your needs, optimise capacity, facilitate staff productivity and enhance your offer. The beauty of the Micromarket lays in the design, we will help you make the most of the allocated area and how to arrange your equipment. Choose from retail shelving, dairy decks and closed chillers, fridges and freezers, microwave units, coffee and payment bays. Your design can even include a sanitiser station. The beauty of this self-service supermarket lays in the custom modular design. You choose how to arrange your equipment and display your SKU's to optimise your offer.

# Slim Market

code - MRKT01

The slim line Micro market is a compact, self-service offer that will fit into most offices or public areas. When space is tight what better way to offer staff or members of the public, fresh healthy food and drink than an automated Micro market.

Micro markets

# Mini Market

code - MRKT02

Let's step things up a notch! We can develop the perfect Micro market for you, as space grows, so will our designs. Micromarket's reflect the amount of personnel on site.

# Midi Market

code - MRKT03

Keep your staff happy with 24/7 easy access to healthy meals, delicious snacks and refreshing drinks. The mid-range Micro market offers can range from frozen food through to fresh soups and premium coffee.

# Ultra Market

Highlight

code - MRKT04

The layout of a Micro market can be customised to suit different workplaces, ensuring no space is wasted. A large Micro market compromises of everything the standard shop will offer.

# Let's build *your* Micro market.

In 2019 and 2022 we were delighted to be awarded 'Best micro market Service' by Associated Vending Services (AVS) recognising our commitment and work in this rapidly growing sector. Since then, we have successfully collaborated on new conceptual Micro market projects and have provided solutions for leading food and drink brands in partnership with the best technology providers.

## 1 Retail

Let's start with the retail, we have a selection of shelving systems that include hanging rods, shelves and baskets for your fresh and ambient offering. We will advise which size you need based on the brief and demand/footfall.

## 2 Chilled

Dairy decks and closed chillers placed in the correct order aids selection and throughput. Choose from either a single or double refrigeration unit.

## 3 Frozen

frozen choices are endless and provide flexibility and extended shelf life. single or double units can be accommodated.

## 7 Sanitising

Protect yourself and users with hand sanitiser stations or bays added directly to the Micro market.

## 6 Payment

We build to house any type of payment system. Why not add an impulse purchase unit to increase revenue? We work closely with the leading payment system companies to ensure all our modules fit the requirements.

## 5 Coffee Bay

You choose the machine and we do the rest! Fresh milk, cup dispensers, condiments and menus... draw attention to your machine by adding lighting or bespoke signage.

## 4 Heat & Eat

Fully contained microwave units providing safe equipment protection, servicing and cleaning. We can also design with condiment trays and storage for flexibility.

# Refreshment Destinations

## THE CHANGING WORKPLACE

The growth in hybrid working, flex space, hub & spoke offices, company break out solutions, repurposing of employee canteens and food-to-go convenience vending have created new opportunities for vending operators, where micro markets aren't a viable option.

### **Refreshment Expectations Have Been Raised**

Premium vending concepts have grown in popularity with seismic shifts in consumer behaviour and technological advances. Gone are the days of stand-alone machines, expectations have been raised and so has revenue potential.

Operators and food and drink brands are looking at innovative, exciting ways to deliver and leverage their offer. Facilities managers and businesses are figuring out how they adapt their catering services to the hybrid working model. To meet this new need, we have designed the Refreshment Destination: A food and drink experience.

Each furniture solution offers the opportunity to provide refreshments and hot food in an equipment configuration that best suits you. All you need to do is choose one of our four designs, select your finish and graphics and we will build and install ready for your equipment. Remember, we can replicate branding across the designs so you can adapt your offer to multi-sites.

# Company Breakouts

RE-ENERGIZE, RE-FOCUS, RELAX

More and more employers are now embracing break out areas and flex space in their site plans. As designers, manufacturers and suppliers of company break solutions, we create unique spaces for informal meetings areas for employees to get away from screen time or just a general break and refreshment pitstop. These areas have evolved and can quite easily accommodate a variety of vending machines and catering equipment.

## Exciting, Unique and Relaxing Spaces

By designing exciting and unique recreational spaces, break out areas can help reduce employee stress, increase productivity, promote healthier office relationships and contribute towards employee wellbeing.

## Custom Made to Suit Your Specific Needs

Nebrak can integrate all your breakout features into a comfortable, practical design that is on-brand and to your budget. Include furniture, meeting booths, coffee huts or chill pods with accessories to complement - we can even source and supply plant schemes. Every breakout area is custom made so don't forget you can style and brand it as you please. Consider adding wheels to our pods and cubes so you can arrange your space according to use, time of day or whim!

# Coffee Towers

## THE BEST COFFEE TO GO SOLUTIONS

Coffee brand owners and vending operators use our coffee tower furniture to leverage their offer and reach new markets. Convenience is the key and our towers offer just that, in aesthetically pleasing and revenue-enhancing solutions.

### Custom Premium Coffee Experiences

One of our most popular vending furniture solutions is the custom coffee tower. Tailor-made to our customer's requirements for their chosen machine, offering a perfect premium fit. Cup holders, condiments and litter chutes come as standard and lighting options are chosen for the ultimate finishing touch. Materials and finish are selected and branding bespoke to complement the shape and finish of your tower.

# Base Units

## MAKE YOUR MACHINE STAND OUT

Our base units are available in over 300 finishes and can be custom wrapped in your unique company branding. Our designers are highly skilled in following strict brand guidelines to achieve a look and feel that represents your company in it's best light.

Cafe culture doesn't just exist on the high street anymore, it's in the office too! Barista style, bean to cup, fresh milk coffee and hot beverage vending machines offer a premium cup without the hassle of leaving the workplace. We can design furniture to suit your range of equipment, site requirements and environment whilst maintaining brand consistency and customer experience.

# Recycle Units

## JOIN THE RECYCLE REVOLUTION

In today's society, recycling is essential if we're to keep the planet safe and sustainable for future generations. Nebrak is proud to support positive changes in recycling by providing eye-catching units that make recycling integral instead of just an afterthought.

With graphics printed as standard and units available in a variety of solid colours and wood grain finishes, they're perfect for a wide range of environments. Each style of recycling unit is available with as many chutes as you require. Choose how much you want to commit to the recycling revolution by adding more chutes, there is no limit when it comes to recycling.

### 500MM

Easy to clean, large and small capacity, we've even got products made from recycled materials too! Whether it's collecting drink cups or food waste, we've got everything you need.

# Coffee Carts & Trolleys

## EYE-CATCHING, STYLISH AND MOBILE

Coffee carts ideal for the workplace at peak periods. All our carts can incorporate electrics for your machine specification and can accommodate refrigeration of your choice, we don't tie you down, you choose or specify and we build with the end result being you get exactly what's required for you and your client.

Portable, practical and professional, providing service where and when you need it. Trolleys can include cool boxes, cash drawers, condiment areas, water and waste containers or anything your catering operation requires. Favoured by hospitality and entertainment venues, colleges, hospitals, showrooms and office settings. All our trolleys and carts are equipped with heavy-duty castor and non-marking industrial rubber wheels with built-in brakes. For added security, we can include lockable shutters, doors and drawers.

# Microwave & Condiment Units

## KEEPING YOU ON THE MOVE

Microwavable food is proving to be a popular option for new vending solutions. It allows the vendor to stock a wider range of items than previously possible. In an office environment, it allows employees to bring food to work. We provide an extensive range of fully contained microwave furniture that protects equipment remains serviceable, easy to clean and attractive to users. We create stand-alone, table-top or bespoke solutions.

We recognise the need for ancillary units so produce a range of condiment cabinets. The ultimate storage space ideal for sauces, napkins, cutlery, waste and stirrer sticks. Designed to complement any catering environment and available in a range of sizes including a corner unit with or without wheels, branded or in your chosen finish to match existing decor.

# Catering Seating

## STURDY, VERSATILE AND PRACTICAL

Whatever the size or shape of your room. From small canteens, tucked into unused corners or out-sized designs fit to cater an actual banquet, there are multiple ways to bring the benefits of banquette seating into your design. Built-in banquette seating is great for maximising space.

Our breakout seating options are designed to be flexible so that individuals and groups can work, collaborate and relax. It offers the freedom for whoever's using it to be versatile. Whether that be a quick meeting, a quiet place to work or have a coffee or food in comfort.

### Single Seat

## ☛ COFFEE BAR

A complete turnkey in house office coffee serve over. We loved the bright, on brand back panel inspired by the coastal location. It's highly functional but sexy too. **What do you think?**

## CANTEEN ☛

A brand-new company breakout and catering space. The design brief worked to company brand guidelines. Zonal spaces were created using premium Natural Halifax Oak to provide spaces to relax and enjoy lunch. **What could we do with your design brief and guidelines?**

## ☛ RECEPTION

Great first impressions, corporate identity, seductive lighting, sustainability and a welcoming vibe, this reception has it all whilst remaining functional. **Do you want to create a lasting impression?**

## ◀ HYDRATION STATION

This catering area complimented a substantial Micro market project. It provided the ultimate storage solution and gave employees a state of the art hydration station and a recycling station. **Want to take your catering space to the next level?**

## BREAKOUT ▶

The growth in hybrid working has created a demand for this catering concept. Designed specifically for a colourful workplace this refreshment destination isn't shy. Choose from 300+ colours and finishes to create a space unique to you. **How bold will you go?**

## ◀ MICRO MARKET

A perfect example of a business transitioning from a managed catering operation to a fully self-service Micro market solution. The result has increased the selection of hot and cold food / beverages, bringing the eatery area into the 21st century. **Do you need an unattended 24/7 retail catering solution?**

## ◀ MICRO MARKET ISLAND

A stand out Micro market which took the vending industry by storm. This Micro market filled a large empty room. Providing a busy site with the perfect stylish on-site shop. Filled with fresh food, chilled drinks, and tasty snacks! **What are you offering your employees for lunch?**

# Don't just take our word for it...

Read what our happy client's say.

“

Tom, Duncan and the team were fantastic and really went the extra mile. In my opinion the new vending machines and housings look the business and we received countless positive comments along the way that I'm sure made us all feel good.

**Martin**  
NVCS LTD

”

“

The Coffee Bar looks fantastic. The workmen were very professional, tidy and interacted well with the staff and residents. They checked all details with me before proceeding and confirmed that everything had been completed to my satisfaction before leaving. Excellent service, thank you.

**Wendy**  
MHA HOMESTEAD

”

“

A huge thank you to you and the whole of the Nebrak team for the exceptional TUCO project! It's hard to find good partners but you delivered on time, on budget and surpassed my expectations. Having a reusable, modular and totally mobile stand will transform our presentations and ability to showcase our products and services.

**Ben**  
HALLMARK VENDING

”

“

The housing is just wonderful! I wanted to send you a quick message to say thank you, to you and your entire team. The gentlemen who turned up to build it today were very professional, friendly and efficient.

**Rebecca**  
ANIMAL FRIENDS INSURANCE

”

“

Firstly I wanted to say thank you for the micromarket install today. I have spoken to the contact on site and he is thrilled with it. So looking forward to seeing it, really appreciate the extra lighting strips as it does really improve the look and feel.

# Foodservice Areas

## MOTIVATIONAL, FUNCTIONAL AND PRACTICAL CATERING

We're experts in interiors and have been partnering with companies to create the best foodservice solutions for over 30 years. Our breadth of knowledge and experience will help you transform your catering area.

### Turnkey Solutions Without the Hassle

We deliver turnkey solutions, so even if you're not looking for a full renovation or new foodservice operation we are still best placed to advise and custom build to your specification. Our catering furniture is often manufactured inclusive of foodservice equipment. Let us supply your chilled island, deck, display deli, hotplate, bainmarie or condiment unit and in return, you'll receive a seamlessly integrated foodservice area good to go.

### Peace of Mind Project Management

Everything from the furniture, lighting, flooring, signage, graphics and accessories can be sourced or made by us. Your Design and Installation will be project managed in-house with us always on hand to guide you through the process. You can trust that Nebrak will deliver your project on time and budget.

SMALL BUSINESSES

SPORTS VENUES

EDUCATION

MILITARY

RETAIL

CORPORATE

HOTEL & LEISURE

HEALTHCARE

Catering Interiors, Reception Areas, Juice Bars and Coffee Shops, all fit within Nebrak's interior services. From client brief to completion, Nebrak takes responsibility and offers a full turnkey service. Nebrak's versatility ensures we can design interiors for all sectors, from hospitals to hotels and army barracks to university canteens. Style, design and functionality are key for all our designs. A catering interior from Nebrak is a great way to make your location stand out from the rest.

REASONS TO WORK WITH NEBRAK ON YOUR NEXT PROJECT...

**1. TRUST**

We immerse ourselves in your business and engage with your ideas, with hundreds of projects under our belt we know this can create a strategy for the transformation of your Catering Interior, you can trust in us.

**2. DEDICATION**

Unlike many other design companies, you will be provided with a dedicated project manager who will be your point of contact throughout the whole project, everything is done in house.

**3. QUALITY**

We have quality procedures that align with our company's methods and practices. Not only do we ensure the quality of all our products leaving the factory is perfect, we take pride in the quality of the finished product, ensuring a snag free completion.

# Coffee Serve Overs

## FOR THE LOVE OF COFFEE

We are skilled in delivering revenue-enhancing hot beverage and food service solutions. From practicalities to operational aspects, aesthetics and ancillaries, we know what works. We specialise in custom coffee serve-overs.

### **Bespoke Back Bars**

Complete your serve-over with a bespoke back bar - favoured by hotels, restaurants, high-street cafes, coffee shops and convenience stores. The additional space lends itself to under-counter refrigeration and valuable storage with the countertop providing an extra area for prep and equipment.

### **Catering Interiors Service**

We offer seamlessly integrated chilled, heated and ambient drop-in appliances, counter displays, graphics & artwork and artificial plant schemes. Finish your space with flooring, seating, lighting and recycling facilities as part of our commercial catering interiors service.

### **Turn Your Coffee Shop into a Coffee Stop!**

Whether it's a one-off project for your company HQ, a multi-site install at your hospital trust or replicated hubs on a university campus, we have the expertise and credentials to deliver a first-class professional install with minimal disruption and unrivalled service. We're pretty good at creating coffee experiences, let us create one for you.

# Vending Showrooms

## IMMERSIVE EQUIPMENT EXPERIENCES

Whether you're a decision-maker or buyer from a vending operator, catering company or food brand a visit to a vending showroom allows you to discover the latest innovations, kitchen equipment, services and accessories all in one place.

### Showcase Your Equipment

Vending showrooms can provide the perfect environment for your business to showcase and demo your catering equipment, host new product launches, and provide professional vending equipment training.

### Vending Showroom Turnkey Solution

We will collaborate with you to design a space to meet your needs. We specialise in commercial front of house catering interiors - catering and vending furniture, so couldn't be better placed to advise on the layout, furniture, lighting, graphics, signage and accessories most suitable for your vending showroom.

We can source everything from cup dispensers to pot plants and because we manage installation too, you get a truly professional turnkey vending showroom solution. View some of our recent showroom projects and vending machine training facilities below.

# Reception Areas

## CREATE A LASTING FIRST IMPRESSION

The reception area is the first thing that new and returning clients will see, suppliers and quite often, the first touchpoint at the start of work for your employees too.

**The space should inspire and be welcoming, professional and practical.**

The current trend for receptions to be multi-functional spaces can be complex. Let us take the complexity out of this challenging workplace design with our in-house project management and design team. Our team will optimise your space, providing custom furniture solutions that embody your company culture, values and brand.

We can re-design or provide a bespoke turnkey workplace installation complete with flooring, lighting, furniture and branding.

We work with you  
to create a  
bespoke design

# Let's collaborate

We have partnered with Kepak to produce a range of furniture from vending housing to base units, microwave and refrigeration towers to bring the brand to convenience stores, forecourts, and workplace and educational settings.

Kepak were able to extend their offer and further grow their business by collaborating with leading coffee machine manufacturer Coffetek and global unattended retail technology specialists 365 Retail Markets. How? By using our custom modular Micro market system and premium vending furniture solutions.

Our award-winning in-house project management and turnkey service is championed by clients because it reduces risk, saves you time and manages your budget.

# Let's get creative

EFFICIENCY, PRODUCTIVITY AND CREATIVITY

With years of industry experience, our in-house design team are here to help make your vision a reality. From the initial brief and site survey, they create detailed CAD drawings before rendering visually stunning designs ready for you to present and sign off.

What we visualise is what we make and is one of the reasons Nebrak has become a trusted industry supporter for over 30 years. We provide an integrated design package that will meet your needs and help gain your vision.

3D CAD VIRTUAL ARTWORK  
PRINT VISUALS BANNERS  
WALK THROUGHS

# PLANNING YOUR PROJECT

## 01 Take off

Once all agreed our team of skilled joiners, graphic designers and installation team really get stuck in. They will bring to life what we have all worked towards and make sure any amendments are sorted so that the end product is something we can all be proud of.

## 02 Costings

From the CAD and visuals our project managers will provide accurate costings and formulate a quotation ready for you to view.

## 03 CAD & Design

Now the fun begins, we provide high quality, accurate photorealistic 3D visualizations as well as technical CAD drawings showing exact layouts for all equipment.

## 04 Site Survey

The sales person will relay all the information and take client expectations to the design team, they will then begin brainstorming to get things moving.

## 05 The Brief

After your call one of our sales team will arrange a visit and obtain the brief and get to know the area, this is important as we like to get involved right from the start. We will also take dimensions so that we can provide accurate drawings.

Space is generally a premium and at Nebrak we know how you use the space allowed to maximise the effect. After the brief, our in-house design team will get to work and make sure the project is as the client requires with a design that works and can be built on budget. We ask that all drawings and visuals are signed off so that all know what to expect and that we will achieve the very best outcome. Above is an example of the process that allows us to complete your project.

# SHAPE YOUR LOOK

We understand every job has to look exactly as you want. It's the details that make all the difference and with over 300 finishes available you can rest assured you will find a colour or texture you love. Every product in our catalogue can be redesigned in the colours or finish you require. We are proud partners with Egger UK a leading innovative, sustainable wood supplier. Below is a selection of our most requested colourways.

# Notes.

## The Small Print.

### 1. VALIDITY

Any quotation is valid for ninety (90) days from the date of issue.

### 2. CARRIAGE & DELIVERY

Will be arranged on receipt of official order subject to the availability of materials and labour. Delivery times are given in good faith and without liability but every effort will be made to maintain them. Short deliveries, deficiencies and damage must be reported to company within three (3) days and non-receipt of goods must be notified to the Company within fourteen (14) days otherwise liability cannot be accepted.

### 3. GOODS & RETURN

Goods can only be returned with Company's written consent.

### 4. LIABILITY

The Company is not responsible for any consequential loss, damage or other liability, however caused, to the purchaser or any third party, by the supply of goods and services.

### 5. RISK & TITLE

Risk shall pass to the customer on delivery by the Company, or its agent, of the goods to the customer. Title in goods shall pass to the customer when payment in full has been made under the contract to the Company. The customer shall permit the servants or agents of the Company to enter on to the customer's premises at any time prior thereto. The customer shall be at liberty to sell or rent the goods in the ordinary course of business on the basis that the goods in sale shall belong to the Company to whom the customer shall account on demand in the event of the Company not having been paid in full by the customer.

### 6. VAT

All quoted prices exclude VAT which will be charged at the current rate.

### 7. PAYMENT TERMS

Strictly thirty (30) days from date of invoice. In the case of noncompliance with these terms, Company reserve the right to charge interest on any amount overdue at the rate of 2% over the National Westminster Bank plc base rate current for the time being and without notice to suspend further deliveries until all arrears (including interest) have been paid and, at the Company's option, to rescind any subsisting contract as to all or any parts of future deliveries but without prejudice to any rights already accrued to Company under such a contract.

# Greater sustainability

We have carbon offset our whole 2022 Catalogue with the WNT. Paper is now regarded as one of the world's great sustainable products. It's biodegradable, recyclable and made from a renewable raw material. Carbon Balanced Paper in partnership with World Land Trust is the next step. It's come at a time when business and consumers are looking for every way they can to reduce their carbon impacts.

Whilst every effort must be made to reduce emissions at source, some emissions may be unavoidable - at least in the short-term.

# Protecting wildlife

The certification, which is part of a scheme operated by WLT, was attained by using a print company that offsets their entire annual operational carbon footprint through the purchase of endangered tropical habitat. By doing this, we will balance more than 24 tonnes of carbon each year, contributing to the preservation of more than 44 acres of endangered forest, equivalent to 25 football pitches.

Sir David Attenborough, a long-time patron and supporter of WLT, says of the charity: "The money that is given to WLT has, in my opinion, more effect on the wild world than almost anything I can think of."

# Conservation

Using the funding from the Carbon Balanced programme, WLT is working with a partner organisation in Vietnam, Viet Nature, to conserve the forests of Khe Nuoc Trong (KNT).

Vietnam is home to around 10% of the world's species. It is also one of the world's fastest growing economies, which is putting pressure on its biodiversity.
